

The art of top  
class decorating!

Machine range for  
plastic tube manufacturing

 polytype

# Competence and experience combined with Swiss quality

- // Heading, decorating and capping of plastic tubes
- // High reliability and optimum productivity with a speed up to 300/min
- // Innovative solutions
- // Outstanding service and short response times
- // Large number of tube machines installed

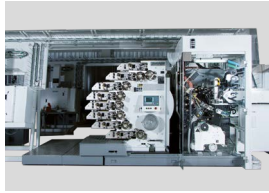

There are many different ways that a plastic tube can be produced. //polytype has the ideal solution for all processes, ensuring that high-quality tubes can be manufactured efficiently. With its vast experience in decoration and tube finishing and the innovative compression moulding heading, as well as in-line or off-line solutions, //polytype is the right partner for your project for highly productive tube production.

The range of machines from //polytype ensures that any tube can be printed – there is a solution for every specification and need. In addition to a broad portfolio of machinery, //polytype also offers a wide range of decoration processes that meet all requirements:

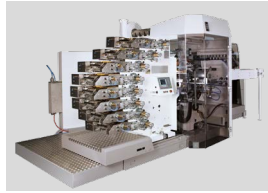

- // Dry Offset
- // Waterless (Toray)
- // Process Offset
- // Flexo print
- // Screen print
- // Cold and hot stamping
- // Digital printing
- // Lacquering and spot lacquering

## A comprehensive tube production equipment program
