There are many different ways that a plastic tube can be produced. //polytype has the ideal solution for all processes, ensuring that high-quality tubes can be manufactured effectively. With its vast experience in decoration and tube finishing and the innovative shoulderless tube making, as well as in-line or offline solution, //polytype is the right partner for your project for highly productive tube production.

The range of machines from //polytype ensures that any tube can be printed – there is a solution for every specification and need. In addition to a broad portfolio of machinery, //polytype also offers a wide range of decoration processes that meet all requirements:

- // Dry Offset
- // Prime Offset
- // Process Offset
- // Flexo print
- // Screen print
- // Cold and hot stamping
- // Digital printing
- // Lacquering and spot lacquering
