Design Change

Two different configurations for higher production flexibility

//polytype

Passion · Innovation · Decoration

//polytype T91 printing units can handle both standard and premium designs

// Photorealistic printing using CMYK
// Ultra sharp details and micro-text printing
// Gradients down to 0 % in all directions
// High-quality printing with consistency
// Faster design changeovers

Dry Offset

Prime Offset

The T91 printing unit comes in 2 versions:

// Full Prime (recommended if >30% Prime jobs)

- Prime Offset with **optimized CMYK printing**, featuring **4 dedicated short anilox inking units for CMYK** and 4–5 standard units for PMS colours;
- High definition waterless offset (PMS colours only);
- Standard dry offset (nylon print with PMS colours only).

// Prime Hybrid (recommended if <30% Prime jobs)

- Prime offset with **standard inking units** for both CMYK and PMS colours.
- High definition waterless offset (PMS colours only);
- Standard dry offset (nylon print with PMS colours only).

T91 printing units general specifications:
